

**Application Brief: Automation Products & Applications for Support of Metered Dose Inhaler Testing**

InnovaSystems offers a suite of products to support testing of Metered Dose Inhalers. These products automate many of the applications recommended in the FDA Guidance's. The following table summarizes the applications and lists the products capable of supporting the respective applications.

APPLICATIONS

P R O D U C T S	Canister Cutter	Agitations/ Actuators	Dose Weights	Actuation/ Dose Weights >40 MDI's, Unattended	Tail-Off, Priming, Repriming Leak Rate	Collection
	MDI AC <sup>2</sup>					
	MDI FD-10		●	1		2
	MDI AS		●	●		●
	MDI DW		●	●	●	●

- – Application performed on these products
- 1 – automated actuation, manual weigh
- 2 – automated actuation, manual collection
